

WHY STUDENT MEDICAL COVERAGE

■ LIFE HAPPENS

While learning to dive is relatively safe, there are inherent risks. From minor injuries such as ear issues or a slip-and-fall to more serious dive related injuries, this coverage helps ensure you can learn confidently knowing you're protected.

■ YOUR MEDICAL INSURANCE MIGHT NOT COVER YOU

Some health insurance plans exclude coverage for adventure sport and scuba diving injuries. Others may have large deductibles or co-pays for treatment. DAN's program pays 100% of covered medical expenses.

■ DIVING-RELATED INJURIES CAN BE EXPENSIVE

Students can get hurt during training and medical treatment can cost thousands of dollars. The average cost for treatment in a hyperbaric chamber can easily exceed US\$10,000.

GO AHEAD - DIVE-IN.

WITH COMPLIMENTARY DAN STUDENT MEDICAL EXPENSE COVERAGE

A new world is about to open up to you filled with breathtaking discoveries and once-in-a-lifetime experiences. Go ahead - dive in. Your dive center and instructor are committed to your safety. Which is why, as a precaution, they've enrolled you in DAN's Student Medical Expense Coverage program.

This complimentary insurance, fully subsidized by DAN, covers you in the unlikely event of a dive injury during your entry-level training. As a diving-related injury or illness can set you back thousands of dollars, it pays to be prepared. While you focus on learning to dive and getting comfortable underwater, DAN has you covered should an unexpected incident occur — above or below water.

Students enrolled in this DAN program are covered for up to US\$25,000 in medical expenses arising from injuries that occur during entry-level (open-water) training and it's available to you at no charge. Just ask your instructor to enroll you.

JOIN DAN ONCE YOU'RE CERTIFIED

Your coverage lasts for 180 days after course registration or until your last certifying dive, whichever comes first. We encourage you to join nearly 500,000 divers worldwide who believe in DAN's mission of dive safety.

The cost is only US\$35+ per year* (US\$55+ for a family) and profits are reinvested into dive safety education and research for the benefit of the entire dive community.
